

'RIGHT TO WORK' IS WRONG FOR MICHIGAN

'RIGHT TO WORK' LAWS ARE BAD FOR THE ECONOMY, BAD FOR WORKERS

So-called "right to work" laws are nothing but a power grab by greedy CEOs and political extremists who want to squeeze even more money out of the working middle class.

GET THE FACTS:

- ☑ **'Right to Work' Laws Do Not Boost the Economy.** "Right to work" laws do not spur job growth, and bringing "right to work" to Michigan will not solve our unemployment problem.
- ☑ **'Right to Work' Laws Do Not Attract Jobs.** Studies show that so-called "right to work" laws are not a significant factor in employers' relocation decisions. Other factors like highway accessibility, land and construction costs, quality education and availability of skilled workers rank higher.
- ☑ **'Right to Work' Laws Do Not Help Workers.** Workers in "right to work" states make an average of \$1,500 less per year, whether they're in a union or not, after adjusting for the cost of living.

(Source: Economic Policy Institute, Briefing Paper #326, 9/15/11)

"Right to work" hurts working families...
Cutting health care. **Gutting** pensions. **Enabling** multinational corporations to send more jobs overseas.
Lowering the standard of living for real people.

**CALL
TODAY**

Tell your state senator that "right to work" is
WRONG FOR WORKING FAMILIES
